ABOUT US

We're Courtney & Matthew, the duo behind Utilize Studios.

We are industrial designers with a passion for creativity, design and nature. Our mission at Utilize is to revive plastic waste into beautifully designed products that enrich your home.

Our name, 'Utilize' captures our strategy to make practical use of every material, tool, software and technology used for each product.

Welcome to a world where quality designs are not just admired but contribute to a greener, more beautiful world.

OUR ETHOS

Local Production

- In-house Production
- Tailored & Exclusive Products

Sustainable

- Recycled Materials
- Bio-derived Materials
- Additive Manufacturing

Quality Design

- Unique, Purpose-Driven Designs
- Stylish & Sustainable
- Innovative Technologies & Software

RIPPLE SOAP TRAY

Details

Dimensions: 150mm x 100mm x 25mm
Weight: 60 grams

Product info

The Ripple Soap Tray was inspired by the ever-changing sand ripple patterns found along the sprawling coastlines of New Zealand.

Use it to display and hold your favourite soaps with elegance. Whether in the bathroom or kitchen, this eye-catching design will undoubtedly bring a glimpse of our country's beautiful shoreline to your home.

TIDAL TRAY

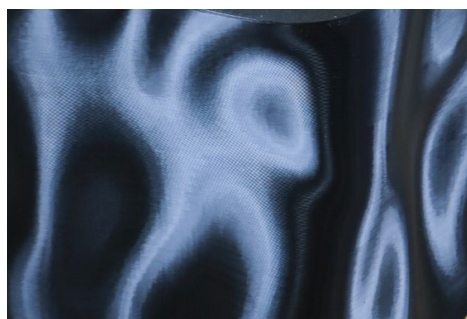

Details

Dimensions: 150mm x 100mm x 25mm
Weight: 85 grams

Product info

Introducing our Tidal jewellery tray, a true homage to the serene waves that grace the beach. Its undulating contours mimic the gentle ebb and flow of ocean waves, creating a mesmerizing display for your cherished jewellery.

Let the tranquil beauty of the beach inspire your daily adornment rituals with this elegant and functional piece.

EBB TISSUE BOX

Details

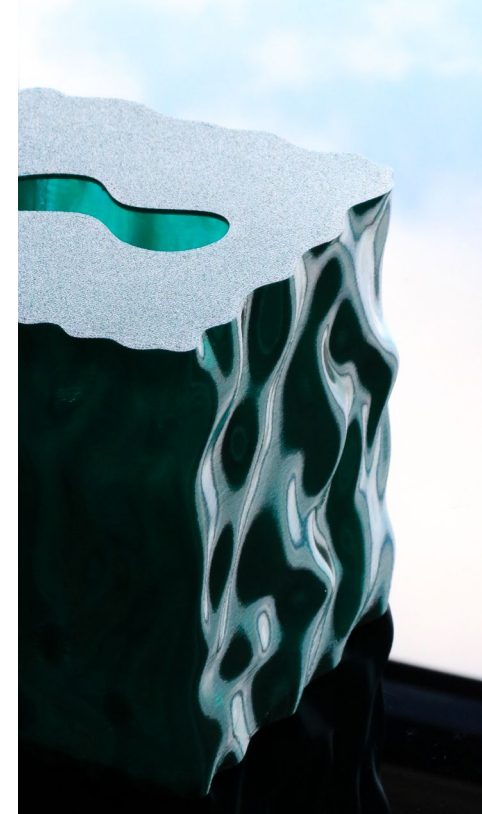

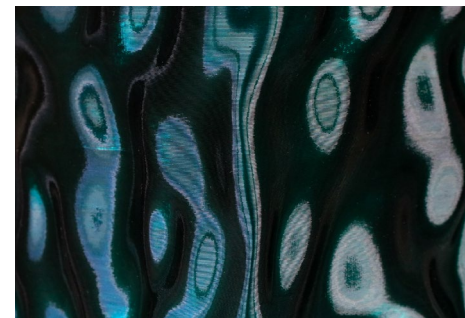

Dimension: 155mm x 155mm x 142mm
(fits standard square tissue box)
Weight: 135 grams

Product info

Elevate your every day with our ocean-inspired tissue box covers. The Ebb tissue box cover mimics the gentle retreat of waves, bringing a sense of peaceful serenity to your living space.

With its soothing curves and wavy aesthetics, this cover not only conceals tissue boxes but also adds a touch of seaside serenity to any room.

FLOW TISSUE BOX

Details

Dimension: 135mm x 135mm x 145mm
(fits standard square tissue box)
Weight: 135 grams

Product info

The Flow tissue box cover captures the fluid motion of waves and the graceful dance of ocean currents.

Let your tissues be adorned by the natural beauty of the sea, and bring a touch of coastal tranquillity into your home.

ARCH BOOKENDS

Details

Dimensions: 104mm wide x 102mm deep x 110mm high
Weight: 100 grams each

Product info

Our Arch Bookends seamlessly combine Kiwi artistry with modern design. Beyond book organization, they serve as versatile additions to your space.

Whether you're tidying up your book collection, discreetly concealing cords, stashing stationery, or showcasing dried flowers, these bookends offer an elegant and practical solution for your needs.

ORVEN BASKET

Details

Dimensions: 213mm wide x 207mm deep x 168mm - 171mm high

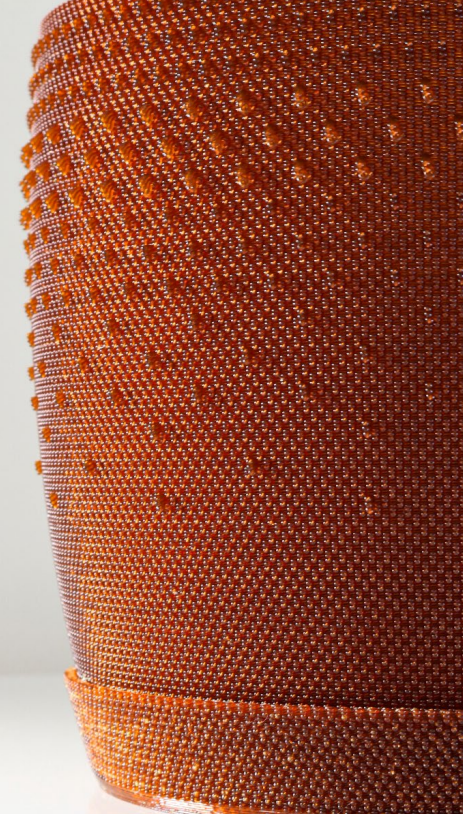

Basket Weight: 250-270 grams
Planter Weight: 325-335 grams

Product info

The warpy-shaped Orven Basket was digitally crafted to honour traditional NZ artistry and reinvision it in a modern design.

Use in your home to store toys, hand towels, paper products or even slip in your favourite indoor plant.

Can be ordered with a plant drainage tray.

LUCENT BASKET

Details

Dimensions: 208mm wide x 208mm deep x 168mm - 172mm high

Basket Weight: 250-275grams
Planter Weight: 335-345 grams

Product info

The balanced Lucent Basket was digitally crafted to honour traditional NZ artistry and reinvision it in a modern design.

Use in your home to store toys, hand towels, paper products or even slip in your favourite indoor plant.

Can be ordered with a plant drainage tray.

PUMICE PLANTER

Details

Dimensions: 120mm wide x 120mm
deep x 125mm high
Weight: 185 grams

Product info

The Pumice Planter takes inspiration from nature with its rough pumice-like texture that is emphasized through the layer-by-layer process of 3D printing.

Use in your office, kitchen, bedroom, bathroom or living room to display your favourite little indoor plant.

MATERIALS

rPETG

Made with either recycled PETG plastic from used medical trays or sheet plastic waste.

rPLA

Made with 98-100% recycled plant-based plastic from used food packaging (e.g fruit boxes, straws and containers,) or discarded and failed 3D prints.

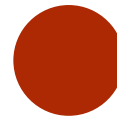

PLA

Made from plant polymers such as cornstarch that can be commercially composted back into the earth.

DISCLAIMERS

- Due to the nature of 3D printing, each finished product may exhibit slight variations, resulting in its own distinctive features.
- While we have taken great care to represent our product colors and images as accurately as possible in our catalog and online, we cannot guarantee that your computer monitor or printed catalog will precisely replicate these colours.
- Please note that all measurements and weights provided are approximations.
- Furthermore, product descriptions and pricing may change without prior notice at our sole discretion. We reserve the right to discontinue any product at any time. Your understanding of these policies is greatly appreciated.

THE FUTURE?

What we are working on...

- We are committed to expanding our manufacturing capabilities. This expansion encompasses the acquisition of large-scale 3D printers to create furniture pieces and the integration of additional printers to augment our production capacity.
- As we expand our product range, we have a keen interest in designing a captivating light that illuminates both spaces and imaginations.
- In our quest for innovation, we aspire to introduce a distinctive and exclusive range of colours that reflect our unique style.
- As part of our long-term vision, we aim to establish a public studio space where visitors can witness the 3D printing process firsthand. This studio will serve as an educational hub, enlightening our audience about the intricate process and boundless possibilities of 3D printing technology.
